

*"Our interface to FreshPoint gives our customers and prospects another compelling reason to implement our food inventory system as part of their food management tool-kit. As our list of interfaces to North America's leading food product vendors continues to grow, Clear Sky FOOD secures its place as one of the leading food inventory systems in the industry.*

Jay Williams, Director of Sales & Marketing, Clear Sky Software

## clear sky FRESHPOINT interface

**Clear Sky FOOD**, our food inventory management system, now has the capability to import FreshPoint™ shipped order files. This new offering from Clear Sky Software automates the process of receiving FreshPoint products resulting in significant time-savings and an increase in accuracy, efficiency and productivity.

## features & benefits

- Import FreshPoint Shipped Order Files
- Automatically Add Product Substitutions to Food Inventory Database
- Automatically Update Pricing to Current Amounts
- Significantly Reduce Time to Receive Products Due to a More Automated Process
- Increase Accuracy and Productivity
- Import Ordering Guides Thus Reducing Set-up Time for New Customers
- Keep Invoice Data for up to 14 Days

The Clear Sky system has the capability of importing shipped order files from FreshPoint resulting in automatic updates of costs and product substitutions. This is a tremendous time-saver for our customers!

Jay Williams, Director of Sales & Marketing, Clear Sky Software

## how it works

Once a FreshPoint order arrives at the customer's site, users select the Clear Sky FOOD Receiving function and import FreshPoint shipped order files. Product information from these shipped order files are displayed on a receiving screen allowing users to adjust product descriptions, cost, and other data if required. Any product substitutions made by FreshPoint are highlighted on the receiving screen. Once any adjustments are made users simply click a Save button and all products on the receiving screen are received into Clear Sky FOOD. Product pricing is updated to current amounts and product substitutions are added to the Clear Sky FOOD product master file. This new interface from Clear Sky Software automates most of the data entry encountered when receiving products from FreshPoint thus saving time and increasing accuracy and efficiency.

The screenshot shows the 'Vendor Receive' interface in the Clear Sky Software. The vendor is 'FRESHPOINT' and the invoice number is '20120723' with an amount of '\$880.01' and date '7/23/2012'. A table lists 12 items with columns for 'Remove', 'Misc Charge', 'New', 'Product', 'Receiving Location', 'Bulk Qty', 'Bulk UOM', 'Unit Qty', 'Unit UOM', 'Units/Bulk', 'Unit Cost', 'Ext Cost', 'Comment', 'Receiving Label', and 'Bulk Vendor Produ'. Item 11 is highlighted in orange and has a checkmark in the 'New' column, with a unit cost of \$25.00 and an extended cost of \$25.00. The interface includes various navigation buttons like 'Requisition', 'Issue', 'Vendor Receive', 'Order', 'In House Return', 'Vendor Return', 'Receive', 'Invoices', 'Clear', 'Save', 'Close Order', 'Import Confirmation', and 'Add New Product'. A sidebar on the left contains menu items like 'Daily Activities', 'Perpetual Info', 'Event Tools', 'Inventory Tools', 'Sales Tools', 'Reports', 'Inquiry', 'Master Files', 'System Tools', and 'About'. A notification at the top left says '11 Adjustments Required'.
