

Our interface with Gordon Food Service (GFS ®) extends the reach of our food management programs to the markets that GFS serves. We are pleased to offer this time-saving technology to our customers and delighted to add GFS to our growing list of interfaces to North America's leading food product vendors.
 Jay Williams, Director of Sales & Marketing, Clear Sky Software

clear sky GORDON FOOD interface

Clear Sky FOOD, our food inventory management system, now has the capability to generate and transmit product orders to Gordon Food Service (GFS ®) and import GFS shipped order files. This new offering from Clear Sky Software automates the process of ordering and receiving GFS products resulting in significant time-savings and an increase in accuracy, efficiency and productivity.

The screenshot displays the 'Vendor Receive' screen in the Clear Sky Software application. The interface includes a navigation menu on the left with categories like 'Daily Activities', 'Perpetual Info', 'Event Tools', 'Inventory Tools', 'Sales Tools', 'Reports', 'Inquiry', 'Master Files', 'System Tools', and 'About'. A sidebar on the left indicates '17 Adjustments Required'. The main area contains a form for 'Vendor: GORDON FOOD SERVICE' and 'Order:'. Below the form is a table of items to be received.

features & benefits

- Generate and Transmit Orders to GFS
- Import GFS Shipped Order Files
- Automatically Add Product Substitutions to Food Inventory Database
- Automatically Update Pricing to Current Amounts
- Significantly Reduce Time to Receive Products Due to a More Automated Process
- Increase Accuracy and Productivity

This interface represents an important step in the evolution of Clear Sky FOOD as an effective food inventory management product. Our customers will benefit from considerable time-savings in critical inventory control functions including vendor product set-up, product receiving, and product/pricing updates.
 Jay Williams, Director of Sales & Marketing, Clear Sky Software

how it works

Orders can be generated two ways:

1. Using an Order Request function on a mobile bar code scanning terminal, users walk food storage areas, quickly and accurately scan products that need ordering, and upload this information to Clear Sky Food. Order requests are displayed on a Clear Sky Food product order screen allowing users to quickly modify orders if needed and add any missing products.
2. The second option for creating food orders is more automated and utilizes the Clear Sky Food function "Create Orders by On Hand". This feature automatically selects food products based on established pars and order points and automatically generates orders by vendor.

Users log into a GFS account and import Clear Sky Food orders. These orders are then processed by GFS and shipped order files are created.

Once a GFS order arrives at the customer's site, users select the Clear Sky FOOD Receiving function and import GFS shipped order files. Product information from these shipped order files are displayed on a receiving screen allowing users to adjust product descriptions, cost, and other data if required. Any product substitutions made by GFS are highlighted on the receiving screen. Once any adjustments are made users simply click a Save button and all products on the receiving screen are received into Clear Sky FOOD. Product pricing is updated to current amounts and product substitutions are added to the Clear Sky FOOD product master file. This new interface from Clear Sky Software automates most of the data entry encountered when receiving products from GFS thus saving time, increasing accuracy, and supporting database integrity.

The screenshot shows the 'Vendor Receive' screen in the Clear Sky FOOD software. At the top, there are buttons for 'Display Mode', 'Beverage', and 'Food'. Below these are buttons for 'Help - F1', 'DataSync', 'Log Out', and 'Exit'. A sidebar on the left contains various tool categories: '17 Adjustments Required', 'Daily Activities', 'Perpetual Info', 'Event Tools', 'Inventory Tools', 'Sales Tools', 'Reports', 'Inquiry', 'Master Files', 'System Tools', and 'About'. The main area features a form for 'Vendor: GORDON FOOD SERVICE' and 'Order:'. Below the form is a table with the following columns: Remove, Misc Charge, New, Product, Receiving Location, Bulk Qty, Bulk UOM, Unit Qty, Unit UOM, Units/Bulk, Unit Cost, Ext Cost, Comment, Receiving Label, and Bulk Vendor Product. The table lists 11 items, including bread, pasta, and various cheeses, all to be received in the 'MAIN KITCHEN'.
